x 11 = ?

x 11 = ?

x 11 = ?

Take the first and last digit. These will be
the first and last digit of the solution!

x 11 = ?

Take the first and last digit. These will be the first and last digit of the solution!

Before, we summed the first and last digits together to make the middle digit of the solution, but now we have 3 digits!

x 11 = ?

Before, we summed the first and last digits together to make the middle digit of the solution, but now we have 3 digits!

We can just combine the sets of adjacent digits!

(+)(+)

x 11 =

Before, we summed the first and last digits together to make the middle digit of the solution, but now we have 3 digits!

We can just combine the sets of adjacent digits!

Carry the digits when necessary!
